

Pressure Transmitter with Display

KWPTD102-G12-X-I-10

Pressure transmitter is designed to work well under various conditions which is combined with the solid state integrated technological and isolate diaphragm technology.

Application

- Petroleum, Chemical Industry
- Electric Power, Water Supply
- OIL & GAS, Plastic Industry
- Ocean and etc.

Technical Data

Description	Specifications
Range	0 - 10 Bar
Accuracy	± 0.25% FS
Display	LCD 4 Digit
Power Supply	12 - 30 VDC
Output	4-20mA, Pulse
Communication	RS485, HART (Option)
Sensor Material	SS304
Connection	Male G1/2
Process Temperature	- 40...+150 °C
Ambient Temperature	- 30...+80 °C
Protection	IP65

Dimension
